Bonneville

Forge Council

A Utah based blacksmithing club

The Bonneville Forge Council is organized exclusively for educational purposes, including the following: to encourage and facilitate the establishment of training programs for aspiring smiths; to disseminate information about sources of material and equipment; to expose the art of blacksmithing to the public; to serve as a center of information about blacksmithing for architects, interior designers, other interested groups and the general public.

Membership is open to ALL for a small annual membership fee.

Benefits of joining include:
The BFC is your best place to find other people interested in blacksmithing, to learn about blacksmithing and to find sources of tools and supplies. We have members all over the state.

We maintain libraries of hard to find books on blacksmithing and related subject. We also carry an extensive library of DVD's.

We have bi-monthly meeting that focus on learning new skills and techniques.

We have an annual conference in September where we bring in one or two well known blacksmiths for a weekend of blacksmithing.

We are a local chapter organization of the Artist Blacksmiths Association of North America (ABANA), a non-profit organization.
ABANA was established on the premise that information about the trade must be shared in order to preserve it. That tradition of sharing and friendship is the most unique aspect of ABANA and the blacksmithing community it represents. http://www.abana.org/
